

**DOSHI PRECISION PANEL  
PRIVATE LIMITED, INDORE**  
**CLEAN ROOM PANELS**

Precision in Panels, Purity in Performance

# COMPANY PROFILE

We offer a wide range of high-performance clean room components designed to meet stringent hygiene, safety and modularity requirements.

# About Us

**Doshi Precision Panel Pvt. Ltd.** is a leading manufacturer and solution provider in the field of clean room partition panels, offering high-quality, precision-engineered products tailored to meet the stringent requirements of controlled environments.

With a strong legacy and a future-focused mind sets, we specialize in the design, fabrication, and installation of modular wall systems that ensure cleanliness, safety, and efficiency in industries such as pharmaceuticals, biotechnology, electronics, healthcare, and food processing units.

Our advanced manufacturing setup, skilled workforce, and adherence to global standards enable us to deliver customized, durable, and contamination-resistant clean room solutions. We understand the critical role clean rooms play in high-performance industries, and our panels are designed to exceed expectations in terms of hygiene, durability, and flexibility.

At **M/s. Doshi Precision Panel Pvt. Ltd.**, we don't just build panels — we build trust, reliability, and performance.

# Why us?

At M/s. Doshi Precision Panel Pvt. Ltd., we stand out as a reliable partner for clean room infrastructure by offering unmatched quality, precision, and service.

## INDUSTRY EXPERIENCE

With decades of expertise in clean room solutions, we understand the unique needs of highly regulated industries.

## SUPERIOR QUALITY PRODUCTS

We manufacture clean room panels and accessories using the highest-grade materials, ensuring hygiene, durability, and compliance.

## TAILOR-MADE SOLUTIONS

Every project is unique — we offer fully customized panel sizes, insulation types, and finishes to suit your requirements.

## COMPLIANCE READY

Our products are designed to meet GMP, ISO, and international clean room standards, supporting audit readiness.

# Our Services

At M/s. Doshi Precision Panel Pvt. Ltd., we don't just deliver products — we deliver complete clean room solutions tailored to your industry's needs.

## Custom Clean Room Design & Consultation

We work closely with clients to understand their operational requirements and provide expert guidance on layout, material selection, and compliance with GMP/ISO standards.

## Manufacturing of Modular Clean Room Components

From partition panels to doors and ceilings, we manufacture high-quality, ready-to-install modular components designed for long-term durability and hygiene.

## On-Site Installation Support

Our experienced team ensures quick, precise, and safe installation of clean room systems at your facility, minimizing downtime and ensuring airtight performance.

## After-Sales Support & Maintenance Guidance

We provide continued assistance post-installation, including troubleshooting, maintenance advice, and modification support as per your evolving needs.

## Panel Customization Services

Need a special size, insulation type, or finish? We offer fully customized panel configurations to meet your specific industry needs.

# Our Products

At **M/s. Doshi Precision Panel Pvt. Ltd.**, we offer a wide range of high-performance clean room components designed to meet stringent hygiene, safety, and modularity requirements.

## Clean Room Partition Panels (PUF/ROCKWOOL/GLASSWOOL)

Our insulated wall panels are available in PUF, Rockwool, and Glasswool cores. They offer excellent thermal insulation, fire resistance, and particle control, ideal for pharmaceutical and sterile environments.

- Available in Double Skin Modular Panels
- Fire-Retardant, Smooth Surface Finish
- Easy-to-clean, Leak-proof Jointing

## Modular Ceiling Panels

Lightweight and robust ceiling systems designed for easy installation of lighting, filters, and HVAC. They maintain integrity and air-tightness throughout.

- Flush-fitted with clean finish
- Load-bearing options for walkable ceilings
- Compatible with HEPA filter modules

## Clean Room Doors (Flush / Swing / Sliding)

Powder-coated or SS doors with high-grade hinges and hardware, available in manual and automatic options.

- Seamless integration with wall panels
- View panels with double-glazed glass
- Antimicrobial handles & kick plates

## Vision Panels / Glass Windows

Double-glazed, flush-mounted clear view panels that provide visibility while maintaining air tightness.

- Clean room compatible
- Optional blinds for privacy
- 45° sloped frame design for hygiene

## Covings & Accessories

Aluminum or PVC covings for wall-to-wall and wall-to-ceiling joints to ensure smooth transitions and easy cleaning.

- >90° and 45° covings
- Silicone-free finishing options
- Hygienic-grade, GMP approved

## Rizer Bin Panel

Modular, easy-to-clean bin panel system used for ingredient storage and transfer in clean room and bulk material zones.

## Custom Panels Also Available

Have a unique requirement? We offer tailored solutions for specific panel sizes, cores, finishes, and integration options.
